

## **Twelve Apostles Primary School – Statement of Intent for Voluntary Funds**

Twelve Apostles Primary School welcomes contributions from parents, carers, and benefactors to enhance our pupils' educational experience. These voluntary funds are used to support activities and resources that fall outside the scope of our statutory delegated budget.

### **Our Purpose**

- To enrich the curriculum through supplementary educational and recreational facilities, such as music resources, sport equipment, school trips, and seasonal events.
- To assist with the costs of extra-curricular activities, including educational visits, school performances, and celebration events.

### **Governance**

- The governing body and school leadership will manage and monitor the voluntary fund with the same financial rigor as public funds, ensuring transparency and accountability.
- Contributions are strictly voluntary—no pupil will be disadvantaged if their family chooses not to participate.

### **How Funds Are Used**

- Financial support will be allocated to initiatives that enhance pupils' learning and well-being, and that could not otherwise be provided through regular funding.
- Parents and benefactors will be informed of how funds are being used through termly updates, including notable projects and events supported.
- Contributions will be utilised in clear alignment with school priorities in areas such as educational visits, curriculum enhancement, specialist resources, and community events.
- We are committed to fair and effective use of these funds, to benefit all pupils and enhance their Whole School experience
